DETAILED ACTION

This Office Action is in response to the Applicants' amendment submitted on 03/15/2007. In virtue of this amendment:

- Claims 1-8 were previously canceled;
- Claims 11-13 are newly added; and thus,
- Claims 9-13 are now presented in the instant application.

Allowable Subject Matter

1. Claims 9-13 are allowed.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Prior art fails to disclose or fairly suggest:

A method of aging a plasma display panel having a scan electrode covered with a dielectric layer, a sustain electrode covered with the dielectric layer and a data electrode, wherein a waveform of voltage applied between the scan electrode and the sustain electrode, in the condition in which the scan electrode acts as the cathode and the sustain electrode acts as the anode, has a gradually ascending leading edge and a sharply descending trailing edge; and wherein a waveform of voltage applied between the scan electrode and the sustain electrode, in the condition in which the scan electrode acts as the anode and the sustain electrode acts as the cathode, has a sharply ascending leading edge and a gradually descending trailing edge, in combination with the remaining claimed limitations as called for in independent claim 9 (claims 11-12 are allowed since they are dependent on claim 9);

Art Unit: 2821

• A method of aging a plasma display panel having a scan electrode covered with a dielectric layer, a sustain electrode covered with the dielectric_layer and a data electrode, wherein the aging discharge in the condition in which_the scan electrode acts as the anode and the sustain electrode acts as the cathode is weaker than the aging discharge in the condition in which the scan electrode acts as the cathode and the sustain electrode acts as the anode, in combination with the remaining claimed limitations as celled for in independent claim 10 (claims 13 is allowed since it is dependent on claim 10).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Substitute Specification

3. The substitute specification submitted on 03/15/2007 has been accepted.

Inquiry

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy V. Tran whose telephone number is (571) 272-1828. The examiner can normally be reached on M-F (8:00 AM -4:00 PM).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Owens Douglas can be reached on (571) 272-1662. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
